Dear Hal,

Heard that Wallace Milam and Dan Beekman are bringing out "Secret Agendas", a longer refutation of Posner. Of course, as you said, "Case Open" was a much longer manuscript!

Only N.B.C. covered ARRB report. The Nightly News featured Posner, Max Holland, and Jim Lesar.

The next day Today had a "debate" between Livingstone and Posner.

Posner got Livingstone to vomit about Zapruder film "Rook."

Posner, Bob and the media hype did not sell well and only convinces the convicted or those who want closure at <u>any</u> price.

Enclosed is the obit of the enigmatic Elena Garro de Paz who tried to link LHO to Cuba.

Enigmatic because she was of the [redacted] left!

The New Hayman bio of R.F.K. reports R.F.K. telling Garrison in effect, you may be right but what difference does it make.

Jim replies that's an odd attitude for the former Chief law enforcement officer of The U.S.

R.F.K. bangs up.

Stay well.

Ed Williams

P.S.

In that book R.F.K. is quoted as saying, "I'm the one who is out to get them." Mob ties. As I indicate you

R.F.K. told friends he suspected CIA, anti-Castro Cubans, and The Mob while in public saying L.H.O. did it alone.

L.B.J. also entertained conspiracy theories.

Were they "assassination BUBBs"?
